DETAILED ACTION

The amendment filed November 8, 2002 has been entered. Claims 1-38 are pending.

Election/Restrictions

Applicant's election without traverse of the species of Figure 1 and the sub-species of Figure 6B in Paper No. 6 is acknowledged.

Claims 3-5, 9-11 and 13-37 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Claim 3 was amended to depend on claim 28.

Claims 2, 6, 8 and 12 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected sub-species, there being no allowable generic or linking claim.

Specification

The disclosure is objected to because of the following informalities:
Page 24, line 15, the terms "φ0.5" and "C0.7" are not clearly understood.

Appropriate correction is required.

Claim Objections

The claims are objected to because the lines are crowded too closely together, making reading and entry of amendments difficult. Substitute claims with lines one and one-half or double spaced on good quality paper are required. See 37 CFR 1.52(b).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 7 and 38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 38 recites the limitations "the heating medium *channels*" in line 4, "the fuel channels" in line 4, and "the *heat* medium channels" in line 7. There is insufficient antecedent basis for these limitations in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 38 is rejected under 35 U.S.C. 102(b) as being anticipated by Andrew. Regarding claim 38, it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987). The working fluids are not structural limitations.

Claims 1, 7 and 38 are rejected under 35 U.S.C. 102(b) as being anticipated by Petit et al (Figure 5) or Kinney, Jr. et al (Figure 11). Regarding claims 7 and 38, it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987). The working fluids are not structural limitations.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
